- ✔ UI UX Design
- ✔ Rest API
- ✔ Redux Toolkit
- ✔ Version control Git - Git Hub

INTERNSHIP

Accenture Developer (vertual)

Web Developer | 12 August, 2023

In my internship, I excelled in defining requirements, redesigning architecture, and scaling to the cloud. I showcased programming, debugging, and testing skills, bolstered security through assessments and IAM management, and actively contributed to AI projects with problem shaping and data privacy.

RELEVANT PROJECTS

Gamehub - Search game by filters

- Created a GameHub website to showcase popular games.
- Utilized HTML, CSS, JavaScript, and React.js for development.
- Implemented a game filter feature. Included game categories for user-friendly navigation.
- Applied responsive design principles.
- Optimized the site for various devices, ensuring it looks and functions well on desktops, tablets, and smartphones.

Laxelane E-commerce Web App

- Designed web based complete e-commerce web application.
- Utilized HTML, CSS, JavaScript, and React for the development.
- Created a product catalog with detailed product listings.
- Displayed product images, descriptions, prices, and ratings.
